Tyler from Abdo Solutions presented the audit for the 20-21 school year. Tyler went over revenues, expenditures, balances and overall financial performance for the school. The school ended 6.1% balance for the 20-21 school year. Tyler said though there was much revenue coming to the school in the 20-21 school year, the expenditures were more. This is due because of the pandemic related expenses.

M. Nor seconded the motion.

Motion carried and was approved 5-0.

### **VI. Executive Report**

**A- Academics and Student Achievement:** Our students are getting outside tutors coming to our school at least 3 times a week. Teachers are seeing progress from these efforts. By January, we will have another partner coming to school. We have started an after school program for our students as well. This is 3 days a week. **B- Food Forms:** There are only about 6 forms left for the office to collect from the parents. This should reflect our compensatory revenue when the state updates the system. **C- Enrollment:** We have about 250 students in the building now. The recruitment is still in the community asking parents to come and join the school. They are explaining to the parents the different programs the school is offering. **D- Upcoming Culture Night:** As a cultural school, Skyline wants to celebrate what is important to the community. As such, The leadership and teachers are putting together a Cultural Night before the winter break comes. We are hoping this effort will become an outreach to the community and play a big role in the community knowing the school, and understanding the school vision, and mission.
