606 - English Learner Program Policy

**PURPOSE**

The purpose of this policy is to ensure English Learner (EL) students receive the services necessary to help them succeed at Skyline Math and Science Academy School in accordance with applicable laws and regulations.

**POLICY STATEMENT**

Skyline Math and Science Academy School identifies, evaluates, and provides EL services to students who meet the eligibility criteria, as defined by law. The EL Program promotes English language proficiency for students, with the primary goal being to help students understand and use social and academic English.

Additional goals include increasing student achievement in academic content areas, encouraging positive attitudes toward students' cultures, and helping students understand the culture of the U.S. Students receive intensive language instruction by EL teachers, in addition to language instruction in the mainstream classrooms. The amount of EL instruction is based on each student's level of language proficiency.

Skyline Math and Science Academy ensures that all qualified EL students receive appropriate education services.
