**Phone:** (612) 200-9916

**Website:** [skylinemsa.org](http://skylinemsa.org)

### **May Events and Highlights**

**NWEA Testing**

Throughout May, our students engaged in the NWEA Testing from May 20 to 31. This assessment is vital in measuring students' academic progress and identifying areas where additional support may be needed. Teachers and staff have been dedicated to ensuring students are well-prepared and supported throughout the testing period.

### **Memorial Day Observance**

Skyline Math and Science Academy observed Memorial Day on May 27. There were no classes, allowing students and staff to honor and remember those who have served our country. This day off provided a brief respite before the final stretch of the school year.

### **End-of-Year Preparations**

As we approach the end of the academic year, preparations are in full swing. Teachers are working diligently on final assessments and projects, ensuring that students have the opportunity to showcase their learning and growth. Parents are encouraged to stay engaged and communicate with teachers regarding their child's progress.

### **Looking Forward**

With the end of the school year in sight, our focus remains on academic excellence and student well-being. We are proud of the hard work and dedication shown by our students and staff. As we gear up for the final days of school, we look forward to celebrating our students' achievements and milestones.

Warm regards,

The Skyline Math and Science Academy Team
